

# AGENDA

*September*

## FREE FLOW

In this phase, our foremost priority is to facilitate the user's unrestricted exploration, fostering a free-flow experience on the platform.

13

## INVESTING

During the investment phase, we'll initiate the investment process and resume the platform's regular flow, focusing on selecting a Level 1 car and making an investment decision.

15

## RESTORATION

In this phase, we will progress through the car's restoration tasks, enabling users to engage with restoration videos, photos, and informative content, enhancing their interactive experience.

19

## WITHDRAW

This marks the final investment phase, where users will witness the withdrawal of their funds alongside the associated percentage-based profits.

21

## REFUNDING

In this phase, our objective is to simulate a scenario where full funding is not achieved, allowing us to demonstrate our commitment by refunding users who have invested.

22

## END OF TESTING

As we conclude our testing phase, users are encouraged to continue interacting with the beta version of the platform, exploring its features and providing valuable feedback for further improvements.
