

SOMETHING LEGENDARY

WHITE PAPER

ABOUT US

WHO ARE WE?

Something Legendary is an investment platform for the purchase, renovation and subsequent sale of classic cars, using Web 3.0 tools as a method of financial ease of use and as a gamification element.

WHAT DO WE DO?

The platform intends to sell the dream of being able to belong to a community that is normally associated with an elitist group since it involves an investment of very high values and a wide range of resources, not only of time but also of knowledge.

ABOUT US

HOW DO WE WORK?

Investors will be able to access our platform, but will only be able to interact with it having an ENTRANCE NFT, which we consider to be an entry ticket for our entire community. Only the ENTRANCE NFT allows the investor to invest and participate in the community and in its most diverse events.

After purchasing this same ENTRANCE NFT the investor chooses the asset (classic car) in which he wants to invest. All technical data and valuation information from the last 10 years are available in the car's details, provided by HAGERTY platform, a specialist and reference entity in the market for many years.

When the investor decides on the asset he wants to invest in, he will invest in stablecoin (USDC/USDT) in order to have a more accurate predictability without suffering from possible volatility of the funds.

After the platform has at least 80% of the funds in its possession (the platform guarantees the viability of any project if the deposits collected totalize at least 80%), it will be able to start the process where it will buy the car, previously reserved by the buyer, and it will proceed to the entire renewal process, where the investor will be able to accompany it at all times on the platform through the support of photos and videos at all relevant stages of vehicle renovation. When this process is over, it will then proceed with the sale, which starts as soon as the renovation is initiated and not just at the end of it so that you already have a buyer at this point. Finally, when the car is sold, the funds will be distributed again to investors, in the same format invested (stablecoin), in the proportion of investment + profit, which, depending on the level where it is, can vary between 12% and 25%.

GAMIFICATION

In order to insert the gamification in the platform, we insert the elements PUZZLE NFT and LEVEL NFT.

For every 5000\$ that the investor puts on the platform, he will be rewarded with an PUZZLE NFT, in which you will need 10 different ones to be able to complete the PUZZLE of the level you are on.

After the end of the same, you will have the option to burn these 10 PUZZLE NFT's, being rewarded with a next LEVEL NFT, being able to now access investments with superior value and return and more exclusive events, not losing access to the previous level or to any of the investments already done.

LEVELS

Each level is only opened if you already have 100 investors available to invest, with the exception of the 1st level.

Cars up to \$200,000

10% ROI

Cars from \$200,000 to \$500,000

15% ROI

Cars over \$500,000

20% ROI

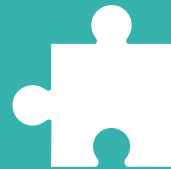

NFT'S

NFT's were inserted in the platform as a method of financial ease of use and as a gamification element, in order not to be an heavy and old financial platform.

ENTRANCE NFT

- 1000 Units;
- A mint price of 100\$ (USDC/USDT) each.

PUZZLE NFT

- 10 different types;
- Each piece is unlocked for every 5000\$ of total investment on the site.

LEVEL NFT

- Obtained by burning 10 different Puzzle NFT's;
- Access to a new range of platform investments.

FUND ALLOCATION

Based on a 30% profit on each car (minimum profit shown in the image below), this profit will be divided as follows:

Level 1 Car (Real Example)

1969 MERCEDES-BENZ 280SL PAGODA

Car purchase	51 950,00\$
Restauration Value	74 455,00\$
Total Investment	126 405,00\$
Estimated selling price	180 000,00\$ a 220 000,00\$
Estimated restoring time	10 months

MARKETING

5% of every project will revert to the marketing.

COMPANY FUND

5% for "savings account".

INVESTORS

10% will revert for the investors of the project.

FIXED COSTS

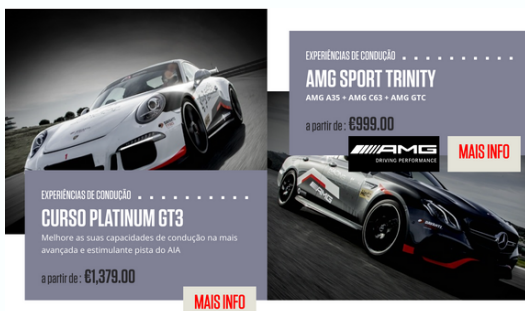

10% will directly pay for: Salaries, insurance and Events/Partnerships.

COMMUNITY

More than be just one more investment platform, our biggest intention is to create a great and united community of people who have a big passion for classic cars. For this, our objective is to bring value for whom who really want to be part of this fantastic journey.

The offers and possibilities extend to all investors who have possession of our entry NFT, however, the higher the level, the greater the exclusivity of the offers and events available where we have already prepared...

Exclusive Access
to the Biggest
Classic Cars event

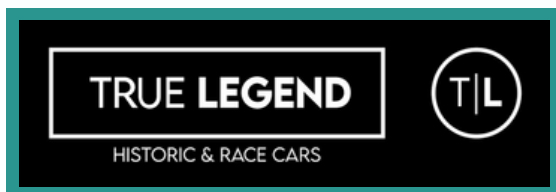

Agressive Driving
Crash Courses

VIP Access
Festival of Speed

PARTNERSHIPS

Nobody builds Something Legendary alone.... And we have the pleasure to work with the best.
